**EFM Tip: Automated Selective Service validation screens no longer available in VOS.**

Individuals who receive WIA services are required to comply with the Selective Service registration requirements (if they are males over the age of 18, and born before January 1, 1960). Until recently, Employ Florida Marketplace had an automated system to verify a WIA applicant's Selective Service registration. However, the Selective Service no longer allows this form of automated access.

Consequently, eligibility staff will need to individually verify a WIA applicant's Selective Service registration by going to the [SSS.gov](http://SSS.gov) website.
