EFM TIP: Version 14.0 Upgrade October 13, 2014

The Employ Florida Marketplace (EFM) version 14.0 upgrade will deploy on October 13, 2014. Version 14.0 will implement enhancements to EFM for jobseekers, employers and staff and allow for federally required data collection for veterans. Documentation highlighting the enhancements are hyperlinked below. Geographic Solutions has also posted training videos which are indexed in a document hyperlinked below.

Client User Acceptance Testing (CUAT) will begin on September 22, 2014 and volunteers are being sought to assist. Each region is asked to identify volunteers who will test the changes and document any identified issues in the On-line Project Communications (OPC) system.

Geographic Solutions will be conducting four webinars during CUAT (2-Staff sessions, 1-Individual/client session and 1-Employer session). Information on these sessions will be separately communicated. These sessions will be recorded for future use.

The upgrade will be pushed to the production site beginning at 6 PM (EST) Friday October 10, 2014. At that time, the system will be off-line and unavailable for all users. The system will be back online Monday October 13, 2014.

Please share this information with appropriate staff members.

Thank you for your assistance.
